

3000lbs CQD14X2

36/48V Reach Truck G Series AC Electric

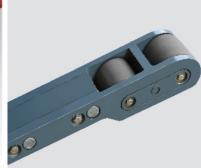

$G_{\text{series}} 3000 lbs$

Great visibility for improved operation and safety

Bolt on outrigger boxes and easy change load wheels

Easy access to drive components

Adjustable backrest and armrest help reduce fatigue

- > Adjustable backrest and armrest help reduce fatigue
- Multifunction control is ergonomically designed and easy to use
- All controls are within easy reach to help reduce body strain
- Compartment floor is angled and spring suspended to reduce leg and back strain

Safety

- Side stance improves operator's visibility both forward and backward
- Automatic park brake applies when operator leaves the compartment or shuts forklift off
- Programmable automatic deceleration in turns adds to safe operation
- > Warning lights and OPS system come standard

Working efficiency

- > Small turning radius makes steering flexible and easy
- With ZAPI control and AC powered motors, drive and lift systems can be programmed for maximum efficiency and performance
- The large battery capacity for longer single shift work operation
- With standard battery roller and side removal, batterychange is quick and easy

Wide view mast and pantograph

- > Comes standard with side shift, tilt and reach functions
- Wide-view mast and pantograph maximize operator's view
- Lift cylinders have end stroke cushions for smooth stopping
- ZAPI controller provides in transit buffers to ensure smooth lifting and lowering throughout the lifting cycle
- The controller also provides in-transit and end storke buffer for the reach function

Improved operator's view

- Large, rounded overhead guard is stylish and combined with stragetically angled bars provides maximium visibility
- Newly designed, wide view mast with special chains enlarges the operator's view looking forward

Energy efficiency

- With an optimized hydraulic system, truck is more energy efficient
- > All LED lights saves 80% of lighting energy
- Regenerative motor braking recycles more energy during braking cycles
- Programmable speed and acceleration settings can be set for maximum energy efficiency

Serviceability

- Side door gives easy access to drive motor and gearbox Chassis components are well laid-out and can be
- > accessed with removable top and front covers

Overhead guard

- Overhead guard attaches directly to mast to eliminate front guard legs
- Optimally designed for maximum operator visibility
- Standard with left side guard leg for added strength
- Optional opertor compartment guard leg for added safety

Heli's New Reach Trucks

Designed for productivity

ZAPI smart display & multi-function joystick

Designed for safety

Standard lights, mesh finger guard & overhead guard with leg

Designed for serviceabilty

Easy to remove covers to access all electric and hydraulic components

CQD14X2-GA2R
CQD14X2-GB2R
CQD14X2-GC2R

NOTE:The vertical axis is the load capacity, and the horizontal axis is the load center which is calculated from the front face of the forks to the load center of gravity. Capacity curves shown are for a standard mast at zero degree tilt with standard forks. Changing mast tilt, using non-standard forks or loading large goods can affect load capacity. This chart can be used to estimate load capacity at various load centers for standard masts. Contact HELI for cpecific load ratings for your situation.

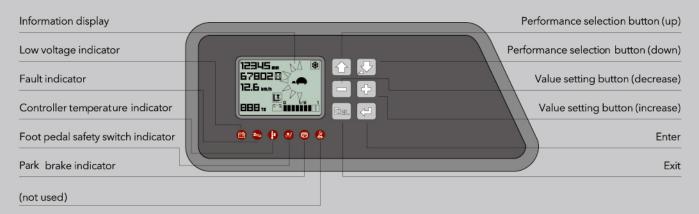

RENEWABLE ENERGY TECHNOLOGIES

With the use of the excellent load-sensing steering system and AC controlling renewable energy technologies, the forklift is more energy-saving and the working hour of the battery is extended by 15%.

ZAPI intelligent display provides vital information such as speed and battery discharge status and is used to customize performance parameters

ZAPI intelligent display

Standard configuration

AC travelling motor

AC lifting motor

AC steering motor

ZAPI travelling motor controller

ZAPI lifting motor controller

ZAPI steering motor controller

Electromagnetic brake

DC/DC conventer

Low noise gear pupm

Electromagnetic proportional valve

5330mm(218 in.) three stage full free lift mast

integral pantograph

Standard fork
